Graded Quiz

Latest Submission Grade 100%

1. In a Shiny application, where do you add input widgets?

1 / 1 point

- ☒ A panel.
- ☐ A tabset panel.
- ☐ A layout.
- ☐ A title panel.

✔ **Correct**
You add input widgets to a panel, typically a sidebar panel, but also other types of panels.

2. Which deployment method should you select for your Shiny app if you do not want to run your own server?

1 / 1 point

- ☐ Shiny Server
- ☒ shinyapps.io
- ☐ RStudio Connect
- ☐ None of these options

✔ **Correct**
With shinyapps.io, you do not need to run your own server.

3. What are the two main differences between an R Markdown document and a Shiny dashboard?

1 / 1 point

- ☐ A dashboard is reusable, while an R Markdown file can only be generated once.
- ☐ A dashboard can contain text, images, plots, and other information, while an R Markdown document contains only easy-to-write plain text.
- ☒ A dashboard always reflects current data, while an R Markdown document produces a snapshot of the data at the time the report is generated.

✔ **Correct**
A dashboard, while an R Markdown document, is a static document.

- ☒ A dashboard can be interactive, while an R Markdown document is static.

✔ **Correct**
The viewer can interact with a dashboard, while an R Markdown document is a static document.
